

GLOBAL EXPRESS XRS ZS-ZBB

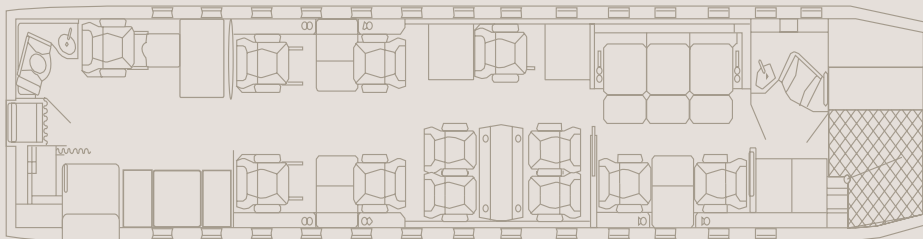

The Global Express XRS is a fast, ultra long range business jet able to transport a party of 8 directly to Europe, Asia or the Americas from South Africa. It has the largest cabin in it's class, divided typically into three sections: A lounge section, a dining or meeting section (also serves as an office area) and a separate state room in the aft cabin. Satellite communication keeps you in touch with the world whilst in flight.
